Executive Secretary

# **MESSAGE FROM THE CHAIRMAN OF THE BOARD OF DIRECTORS 2011**

The Council of Owners and Construction Associates, Incorporated (COCA, Inc.) is a local Construction Users Council serving the Metro-East area of Southwestern Illinois.

The primary objectives of COCA, Inc. are to achieve a more cost effective construction industry which yields "more construction and maintenance for the money" and at the same time develop highly technical programs to effectuate a safer workplace through education.

COCA's members feel, when all segments of the construction industry; Owner/Users, Contractors, and Labor; are well informed and working in harmony, cost effective construction and maintenance projects can be realized. This will help assure the survival of our existing businesses, and make the entire Metro-East area of Southwestern Illinois more attractive and a safer environment for economic development.

During 2010, we experienced a high level of participation for all our activities. We now have over 1690 people who have completed our OSHA 30-Hour Construction Safety and Health Course, and we continue to offer the Competent Person Trenching & Shoring training course. Our bi-annual conferences continue to keep the entire industry up-to-date on critical issues which affect our businesses.

We continue to attract new Construction Associate members who understand the value we provide to the construction industry.

I would like to invite all those who are interested in becoming better informed on matters within the Construction Industry to participate in our various programs and become members of COCA.

If you would like more information about COCA, please go to [www.cocainc.com](http://www.cocainc.com) or call Raymond Wesley at 618-288-9434. Thank you.

Kathy Roemmel  
Board Chairman, COCA, Inc.  
Managing Director, Dynegy, Inc.

<b>DECEMBER 8</b>	<b>BOARD OF DIRECTORS QUARTERLY MEETING</b>

# **SUMMARY OF COCA PROGRAMS AND EVENTS**

## **2010**

**FEBRUARY 18/19 & 25/26:** COCA's ongoing 30-Hour OSHA Construction Safety and Health Training Course was held at the Ramada Inn in Fairview Heights, Illinois.

**MARCH 3:** A joint meeting of COCA's Board of Directors and Construction Associates was held at Southern Illinois University at Edwardsville, Illinois. The speaker was Mr. Block Andrews, Director, Strategic Environmental Solutions for Burns & McDonnell. He spoke about "Carbon Cap & Trade and the Green House Legislation – How could this affect your business".?

**APRIL 21:** A conference was conducted at the Gateway Center, Collinsville Illinois entitled, "Contemporary Issues in Construction: Confronting Challenges in the Workplace." Local industry leaders provided an in-depth look at the changing work environment while maintaining compliance with new and existing OSHA standards. With the many Metro East projects in progress and on the horizon, local experts answered questions and concerns about how they meet new challenges while maintaining safety and productivity on their job sites. This was an opportunity to hear first hand from these experts how they were focused on building projects in the metro area through new and innovative management techniques and completing these major projects safely without sacrificing productivity. Our audience had an opportunity to hear how the most successful companies managed their businesses while maintaining compliance with current rules and regulations and received an "inside look" at what they could do to help themselves when an OSHA Compliance Officer visited their job site.

**MAY 1:** COCA held a Trenching & Shoring Competent Person Safety Training Seminar at the AmerenIP Service Yard in Belleville, Illinois.

**MAY 6:** A joint meeting of COCA's Board of Directors and Construction Associates was held at Southern Illinois University at Edwardsville, Illinois. The speaker was Mr. Richard Spurgeon, Managing Supervisor of Safety for Ameren's Newton Power Plant. He discussed the success Ameren has had in safety through changing the culture of the workforce.

**JUNE 17:** A 4-Person Golf Scramble was held at the Spencer T. Olin Community Golf Course, the Fox Creek Golf Club, The Lockhaven Country Club and Belk Park Golf Course along with a Trap & Skeet Shoot at the Olin Gun Club. These events were held in conjunction with COCA's annual after-hours Barbeque Social held under the pavilion at Spencer T. Olin. Owners, Contractors, Labor Leaders, and invited guests had an opportunity to get together in an informal setting to enjoy some food, beverages, and fellowship. More than 650 people participated.

**SEPTEMBER 9:** A joint meeting of COCA's Board of Directors and Construction Associates was held at Southern Illinois University at Edwardsville, Illinois. The speaker was Mr. Patrick McKeehan, Executive Director, Leadership Council Southwestern Illinois. Patrick discussed the progress of the proposed levee reconstruction project and the legislation recently passed delaying the mandatory insurance requirements and the nationwide redistricting maps for the American Bottoms flood plain in our region.

## **SUMMARY OF MAJOR EVENTS - 2010 (cont.)**

**OCTOBER 6:** A conference was conducted at The Gateway Center in Collinsville, Illinois, entitled "Contemporary Issues in Construction Safety." The first speaker was Mr. Dale Kuhn, Damage Prevention Manager from JULIE, Inc. He spoke about "The Illinois Underground Utility Facilities Damage Prevention Act" which requires anyone digging in the State of Illinois to notify the state-wide one-call notice system (JULIE) prior to beginning their excavation. This presentation answered the questions of why and how JULIE promotes excavation safety in Illinois. Mr. Kuhn also discussed recent changes in Illinois state law as well as current issues with regard to the locating and marking of underground facilities. Excavation safety and damage prevention are in everybody's best interests, and the process begins with a call to JULIE.

The following speakers were Mr. John Langford, Corporate Safety Director for McHugh Construction and Mr. Patrick Wineburner, Vice President of Safety and Risk Management for Budrovich, Inc. They shared pertinent information and spoke in-depth about the new Crane & Derrick standard as finalized by OSHA. Our audience learned about the changes that could affect them and their subcontractors. It offered them an opportunity to hear first hand from the experts in the field of Safety about the changes occurring in Washington with OSHA and how it can impact their company. They learned the latest information about proposed changes in the Construction Standard and what to expect in the coming months. This conference offered details about what companies must do to stay in compliance with CFR 1926, the Construction Industry Standard.

**OCTOBER 7/8 & 14/15:** COCA's ongoing 30-Hour OSHA Construction Safety and Health Training Course was held at the Ramada Inn in Fairview Heights, Illinois.

**DECEMBER 9:** A joint meeting of COCA's Board of Directors and Construction Associates was held at the Southern Illinois University at Edwardsville, Illinois. The COCA Owners presented an overview of their upcoming major construction and maintenance projects as well as their progress on their current projects. Additionally, they described their current levels of plant operations and employment, and their safety experiences with contractor employees.
